PART 145

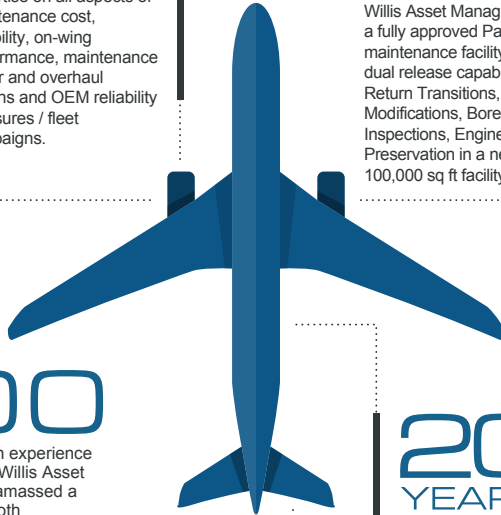

Federal Aviation Administration

EASA
European Aviation Safety Agency

Willis Asset Management are a fully approved Part 145 maintenance facility with EASA/FAR dual release capability for Lease Return Transitions, C Checks, Modifications, Borescope Inspections, Engine Storage and Preservation in a newly acquired 100,000 sq ft facility in the UK.

200

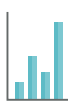

Based on teardown experience over 200 engines, Willis Asset Management has amassed a vast database of both commercial and technical information to support all consultancy services.

20 YEARS

Being at the forefront of aviation markets for over 20 years, Willis Asset Management is best placed to provide accurate real market valuations for the majority of engine variants across all major OEMs, whether the engine is destined for continued operation or part-out.

1000 SHOP VISITS

Willis Asset Management has managed over 1000 shop visits and have proven experience with negotiating technical agreements with commercial considerations (through engine selection, lease, purchase, maintenance agreements and RFQs).

GLOBAL

Willis Asset Management consultancy is underpinned by unrivalled experience, delivering for clients on an international scale with a global presence to enable this. With dedicated teams available to deploy at a moment's notice, Willis Asset Management is ready to provide the support and advice you need.
